

California Broadband Council Meeting Recording Transcript May 27, 2020

00:00:15.417 --> 00:00:18.97
20 and of the California broadband

00:00:18.957 --> 00:00:22.687
council is great to have everyone on line and

00:00:22.687 --> 00:00:26.407
I wanted to make sure everybody have
00:00:26.407 --> 00:00:29.457 a
chance to know that this is

00:00:29.457 --> 00:00:32.917
t this is a one hour meeting in in the midst of

00:00:32.917 --> 00:00:36.587
ctivities going on because

00:00:36.587 --> 00:00:39.657
this one hour and it's on video this meeting will be reported.

00:00:39.657 --> 00:00:43.017
And so that there for just

00:00:43.017 --> 00:00:46.217
a want to make sure that it's aware to already

00:00:46.217 --> 00:00:50.017
attendee of the meeting up with that

00:00:50.017 --> 00:00:53.487
if I could have are moderate are to go ahead

00:00:53.487 --> 00:00:56.247
and change the slide into all of our. Council member.

00:00:56.767 --> 00:00:59.867
Who are able to join

00:00:59.867 --> 00:01:03.917
today? And we're gonna start the meeting by doing a roll

00:01:03.917 --> 00:01:04.997
call by Michael.

00:01:05.867 --> 00:01:09.067
Thank you. Amy. So let me begin with roll call

00:01:09.067 --> 00:01:12.427
I'll start with you miss. Tong

00:01:12.427 --> 00:01:13.857

here Miss Guzman Estevez.

00:01:15.897 --> 00:01:17.327 Here.

00:01:17.857 --> 00:01:21.707 Mister
Mallon

00:01:21.707 --> 00:01:22.727 e Mr
Winkler.

00:01:27.147 --> 00:01:28.727 Mr
Winkler.

00:01:29.437 --> 00:01:31.617 You're
muted.

00:01:32.747 --> 00:01:36.317 Mister
Mister

00:01:36.317 --> 00:01:37.027

00:01:37.757 --> 00:01:39.587 Images.

00:01:40.187 --> 00:01:43.467 OK, I'm
here.

00:01:43.467 --> 00:01:45.207 Mr
Jamison.

00:01:45.857 --> 00:01:48.667 Here
Miss Pepper.

00:01:50.567 --> 00:01:55.577 Here
Miss Mcpeake

00:01:55.577 --> 00:01:56.637 Here Mr
Brass.

00:01:57.267 --> 00:02:00.437 Here is
Neville Banya.

00:02:01.947 --> 00:02:04.587 Here
Miss Snyder.

00:02:06.747 --> 00:02:11.447 Miss
Snyder.

00:02:12.867 --> 00:02:17.347 Wow.

00:02:17.947 --> 00:02:23.307

Let's

00:02:23.307 --> 00:02:25.147
move to the next member Miss Smith.

00:02:25.897 --> 00:02:29.397
Hear Doctor Williams.

00:02:30.377 --> 00:02:33.587
Here OK, thank you that

00:02:33.587 --> 00:02:34.127
t is the local.

00:02:34.777 --> 00:02:37.807
Alright. Thank you everyone. We have a quorum and

00:02:37.807 --> 00:02:40.907
now let's go ahead and proceed and once

00:02:40.907 --> 00:02:44.387
again, this is our second meeting and we are

00:02:44.387 --> 00:02:47.677
purposely keeping this to a short one hour

00:02:47.677 --> 00:02:50.697
today and knowing that we're going to be

00:02:50.697 --> 00:02:54.327
asking. Council member for approval for a longer full length

00:02:54.327 --> 00:02:58.007
meeting perhaps in July and that's for the obvious reason we

00:02:58.007 --> 00:03:01.087
are in the midst of pandemic response

00:03:01.087 --> 00:03:04.607
and I know everybody is very, very busy, and

00:03:04.607 --> 00:03:05.807
we appreciate all of the council members.

00:03:05.807 --> 00:03:09.187
You know, Despite that busy schedule still able

00:03:09.187 --> 00:03:12.197
to join as this is a public meeting to

00:03:12.197 --> 00:03:15.637
public to engage, you know, in terms of

00:03:15.637 --> 00:03:19.157

all the states broadband initiatives

00:03:19.157 --> 00:03:22.347

I have to add that we are literally competing

00:03:22.347 --> 00:03:26.487

with the SpaceX launch at the moment. So.

00:03:26.487 --> 00:03:28.867

Yes.

00:03:29.607 --> 00:03:33.177

And with that we will keep all of

00:03:33.177 --> 00:03:36.367

our remarks, I'd and short and brief but I

00:03:36.367 --> 00:03:39.387

have high confidence that the broadband

00:03:39.387 --> 00:03:42.517

councils update is gonna be just interesting if not

00:03:42.517 --> 00:03:45.787

ot more than the space X launch at

00:03:45.787 --> 00:03:49.487

Moment. So without further ado. I'm gonna go ahead

00:03:49.487 --> 00:03:52.567

nd ask each council member to present

00:03:52.567 --> 00:03:56.337

up 2 3 minutes of update of all of your initiatives

00:03:56.337 --> 00:04:00.677

after that we do have two guest speaker

00:04:00.677 --> 00:04:03.007

eaker graciously agreed to join to talk about their specific usage.

00:04:03.007 --> 00:04:06.667

Of broadband especially in this pandemic

00:04:06.667 --> 00:04:09.907

time we welcome at that

00:04:09.907 --> 00:04:13.787

moment of Mary nicely the senior adviser to Superintendent

00:04:13.787 --> 00:04:17.117

ent of public instruction as well as

00:04:17.117 --> 00:04:21.297

Il as Director Kim way and joining us for

00:04:21.297 --> 00:04:24.487
that came way McCoy and so. Let's start

00:04:24.487 --> 00:04:26.647
with the council member update.

00:04:27.547 --> 00:04:30.747
Let's begin with a

00:04:30.747 --> 00:04:32.577
senator he sales representative miss. Sarah Smith.

00:04:33.337 --> 00:04:38.767
Hi

00:04:38.767 --> 00:04:39.357
this is Sarah.

00:04:41.917 --> 00:04:45.117
And I in terms

00:04:45.117 --> 00:04:49.147
of legislative action the Senate enerji utilities and

00:04:49.147 --> 00:04:52.447
communications committee completed its final

00:04:52.447 --> 00:04:55.867
polisy hearing before the policy built

00:04:55.867 --> 00:04:59.027
the policy deadline for fiscal bills yesterday there

00:04:59.027 --> 00:05:02.657
were a number of bills related to broadband

00:05:02.657 --> 00:05:05.707
specifically at. Chair of the Senate energy utilities

00:05:05.707 --> 00:05:09.567
and communications committee had FB 10

00:05:09.567 --> 00:05:12.977
58 which aims to provide

00:05:12.977 --> 00:05:13.527
greater access to broadband during.

00:05:13.527 --> 00:05:16.717
Emergencies and disasters and

00:05:16.717 --> 00:05:19.907

then S be 11:30 which is senator

00:05:19.907 --> 00:05:22.977

Lena gonzalas is bill that would make modifications to

00:05:22.977 --> 00:05:26.457

the California advanced services fund

00:05:26.457 --> 00:05:30.247

with by expanding both the eligibility for

00:05:30.247 --> 00:05:34.077

the program in terms of the areas that are considered unserved. And then

00:05:34.077 --> 00:05:37.677

also modifying the requirements for infrastructure

00:05:37.677 --> 00:05:38.457

that would be funded through the program.

00:05:43.097 --> 00:05:43.867

Great.

00:05:44.407 --> 00:05:47.547

Thank you Sarah for that, and we

00:05:47.547 --> 00:05:50.997

e gonna move to a assemblymember

00:05:50.997 --> 00:05:52.707

gibsons representative doctor Williams.

00:05:53.577 --> 00:05:57.007

I have nothing to

00:05:57.007 --> 00:05:59.037

add that today just appreciative of the work.

00:05:59.807 --> 00:06:03.237

Of

00:06:03.237 --> 00:06:06.637

your government relations folks and

00:06:06.637 --> 00:06:09.657

also with the chair on a

00:06:09.657 --> 00:06:12.777

matter related to a district

00:06:12.777 --> 00:06:16.077

issue also appreciative of the work that

00:06:16.077 --> 00:06:17.407

CE has been doing in terms of.

00:06:17.957 --> 00:06:21.287
Connecting more of our districts

00:06:21.287 --> 00:06:24.347
in the 64th assembly district and throughout the state predicted

00:06:24.347 --> 00:06:27.547
low income minority serving school district at

00:06:27.547 --> 00:06:30.787
the K through 12 level related to broadband access

00:06:30.787 --> 00:06:34.677
So again, we're just appreciative of the work and happy to hear

00:06:34.677 --> 00:06:34.947
your updates and reports.

00:06:36.067 --> 00:06:40.597
Thank you doctor

00:06:40.597 --> 00:06:43.817
Williams and I understand the governor's Tribal

00:06:43.817 --> 00:06:47.007
advisor miss. Christina Snyder is joining over the phone

00:06:47.007 --> 00:06:49.697
so if I could have Christina to provide an update please.

00:06:50.277 --> 00:06:53.297
Hi, yes, can you hear me Yes?

00:06:54.087 --> 00:06:57.107
I don't have anything

00:06:57.107 --> 00:07:00.237
major to update but did we are kind

00:07:00.237 --> 00:07:03.267
of focused on everything kovid. So a lot of

00:07:03.267 --> 00:07:06.787
what's been coming up in terms

00:07:06.787 --> 00:07:10.047
of the Tribal communities and where they're seeing gaps

00:07:10.047 --> 00:07:13.087
or that there's some major infrastructure issues that have always

00:07:13.087 --> 00:07:16.897

been there, but in times like this are

00:07:16.897 --> 00:07:20.537
exacerbated we. 've been working to connect them with

00:07:20.537 --> 00:07:23.547
both state resources and private resources

00:07:23.547 --> 00:07:25.617
to get students and employees an.

00:07:25.797 --> 00:07:29.237
Government workers said the access they

00:07:29.237 --> 00:07:32.247
need to be able to tell a work and

00:07:32.247 --> 00:07:36.347
ocial distance sorry physical distance

00:07:36.347 --> 00:07:39.367
but we're seeing in some areas because of these critical

00:07:39.367 --> 00:07:43.827
infrastructure gaps providing a hot spot where there's no

00:07:43.827 --> 00:07:46.977
cell. Service and providing

00:07:46.977 --> 00:07:50.707
Chromebooks and providing laptops is just not really cutting it. So I

00:07:50.707 --> 00:07:54.207
think that it's exposing or at least.

00:07:54.207 --> 00:07:57.237
By making it more

00:07:57.237 --> 00:08:00.757
pressing these gaps. And so we're looking at ways where we can

00:08:00.757 --> 00:08:04.057
be more supportive, and in some sort

00:08:04.057 --> 00:08:07.317
of larger federal effort to

00:08:07.317 --> 00:08:10.367
alleviate these issues given

00:08:10.367 --> 00:08:13.567
that it looks like a lot of what we're doing as a

00:08:13.567 --> 00:08:16.217

state and. At the population is shifting toward a more.

00:08:17.297 --> 00:08:20.967

Mobile population or at least work from

00:08:20.967 --> 00:08:24.347

home population. So that's my update interested

00:08:24.347 --> 00:08:26.107

in hearing what everyone else has to say thank you.

00:08:26.827 --> 00:08:29.897

Thank you Christina, I

00:08:29.897 --> 00:08:32.957

I also wanted to take this moment to let those of you that are

00:08:32.957 --> 00:08:36.147

joining online watching this Ms

00:08:36.147 --> 00:08:39.267

teams life event if you have questions. You can go ahead

00:08:39.267 --> 00:08:42.537

and take the opportunities to go ahead and

00:08:42.537 --> 00:08:45.687

put your question in the QA box and then as

00:08:45.687 --> 00:08:49.677

soon as all the council members finished their update

00:08:49.677 --> 00:08:52.717

and after the presentation by our two guest speakers

00:08:52.717 --> 00:08:55.187

We will be able to address the questions.

00:08:55.917 --> 00:08:59.107

Thank you without, let's

00:08:59.107 --> 00:09:01.767

s move to Department of Education. Jerry Winkler.

00:09:04.177 --> 00:09:07.397

Yes, sure

00:09:07.397 --> 00:09:10.557

when Claire Department of Education some of

00:09:10.557 --> 00:09:13.617

the things that we've been working on our verifying

00:09:13.617 --> 00:09:18.147

the needs of the districts

00:09:18.147 --> 00:09:21.317
of contacted, well over 1500 schools some

00:09:21.317 --> 00:09:25.077
ome survey responders at a survey went out early

00:09:25.077 --> 00:09:28.287
on to some. Of the smaller school districts to find out exactly what their

00:09:28.287 --> 00:09:31.617
needs were and to verify and

00:09:31.617 --> 00:09:34.887
actually to try and understand some of the stories that they've that they're having right now.

00:09:34.887 --> 00:09:37.937
We've had one principle that

00:09:37.937 --> 00:09:40.967
said he's got a teacher that's contacted 33

00:09:40.967 --> 00:09:44.107
over students 28 of which have

00:09:44.107 --> 00:09:47.287
a connection she's talking with each student one on one zoom for about an

00:09:47.287 --> 00:09:50.447
hour a week at the five that. Do not

00:09:50.447 --> 00:09:54.097
have broadband connections. She's actually calling them on the phone and talking to them on

00:09:54.097 --> 00:09:58.517
the phone. So the teachers are really working

00:09:58.517 --> 00:10:01.717
at it. We also had a group of five students

00:10:01.717 --> 00:10:05.547 that
invited their teacher to

00:10:05.547 --> 00:10:08.417
heir ring to get help from her on a particular activity that they were working on. So.

00:10:08.417 --> 00:10:11.557
It's going both

00:10:11.557 --> 00:10:15.047
directions, which is very impressive for some of these

00:10:15.047 --> 00:10:18.117
students. But the stories are about

00:10:18.117 --> 00:10:21.327
the needs for some of the rural areas

00:10:21.327 --> 00:10:24.527
the SMS etc. So it's very, very important that

00:10:24.527 --> 00:10:27.847
we respond to those needs and get the connectivity out

00:10:27.847 --> 00:10:30.977
to them as quickly as possible. Also just real quick.

00:10:31.647 --> 00:10:34.737
We're working with other state national

00:10:34.737 --> 00:10:37.907
education organizations people like K

00:10:37.907 --> 00:10:40.917
12 HSN the scenic organization small school

00:10:40.917 --> 00:10:45.397 districts
Association CTF CSF

00:10:45.397 --> 00:10:48.707
seed ASI CS. So on a national level.

00:10:49.307 --> 00:10:53.527
They are also providing state some

00:10:53.527 --> 00:10:56.667
the states are providing direction for CC SSO to work

00:10:56.667 --> 00:11:01.507
with the FCC and the U S ledge for broadband

00:11:01.507 --> 00:11:05.637
support working on things like the cpuc

00:11:05.637 --> 00:11:08.817
to get local assistance to the schools

00:11:08.817 --> 00:11:11.927
subsidies on. School district mobile connections

00:11:11.927 --> 00:11:15.337
that type of thing. And then

00:11:15.337 --> 00:11:18.837

also the \$5 million grant for districts.

00:11:18.837 --> 00:11:21.947

Student devices. There's been many

00:11:21.947 --> 00:11:25.327

grants and many initiatives and Mary

00:11:25.327 --> 00:11:27.797

nicely be talking about those and little bit later.

00:11:30.307 --> 00:11:33.357

Excellent, thank you for that Jerry

00:11:33.357 --> 00:11:36.897

Let's move on to Cpuc Commissioner Guzman.

00:11:38.837 --> 00:11:42.007

Chivas, hi, everyone.

00:11:42.597 --> 00:11:44.557

Can you guys hear me OK?

00:11:45.207 --> 00:11:45.797

Yes.

00:11:46.667 --> 00:11:49.697

OK I apologize for not being able to work

00:11:49.697 --> 00:11:52.757

through this little technical issue here but I can see

00:11:52.757 --> 00:11:54.297

you guys.

00:11:54.297 --> 00:11:59.637

Well, we've been pretty busy as Jerry mentioned. We've

00:11:59.637 --> 00:12:03.027

taken the opportunity to really work through.

00:12:03.027 --> 00:12:06.257

Looking at our funding programs and really trying to see

00:12:06.257 --> 00:12:09.417

how we can best partner with our sister agencies

00:12:09.417 --> 00:12:12.437

and particularly CDE there's just

00:12:12.437 --> 00:12:16.197

a few highlights one is our adoption something program

00:12:16.197 --> 00:12:19.407

But we approve 5 million dollars to work with

00:12:19.407 --> 00:12:22.487

C D E for prioritizing

00:12:22.487 --> 00:12:25.877

small and rural school districts and medium

00:12:25.877 --> 00:12:29.857

to get them the actual kind of hard

00:12:29.857 --> 00:12:32.117

including tablets.

00:12:32.117 --> 00:12:35.347

It's been I really

00:12:35.347 --> 00:12:38.587

I opening, I'm sure as it was mentioned there such a

00:12:38.587 --> 00:12:41.717

great need and this small bit of funding is only going

00:12:41.717 --> 00:12:45.267

to hopefully reach about we estimate 20

00:12:45.267 --> 00:12:49.107

000 gadgets be they tablets or something else

00:12:49.107 --> 00:12:52.217

And we know the need is far beyond

00:12:52.217 --> 00:12:54.377

d, I think I know what your latest numbers are Jerry, but close to 500,000.

00:12:54.917 --> 00:12:57.947

I am In addition we

00:12:57.947 --> 00:13:01.537

e also provided some changes to or clarification on

00:13:01.537 --> 00:13:04.667

the California teleconnect fund, which is another public

00:13:04.667 --> 00:13:07.767

purpose program. That's funded by our all of our phone

00:13:07.767 --> 00:13:10.847

bill. And this direction

00:13:10.847 --> 00:13:14.227

essentially allowed the recipients which are K through 12 recipients to

00:13:14.227 --> 00:13:16.767
use additional funds.

00:13:16.767 --> 00:13:19.817
An and I won't go into a lot of details on how

00:13:19.817 --> 00:13:22.867
the funding works. But essentially thus far

00:13:22.867 --> 00:13:26.287
we've been able to fund approximately 250

00:13:26.287 --> 00:13:29.387
000 hotspots with that money and

00:13:29.387 --> 00:13:32.627
we are still have the application open until

00:13:32.627 --> 00:13:36.107
the end of the month. So will hopefully see if you

00:13:36.107 --> 00:13:39.117
and that's not, that kind that

00:13:39.117 --> 00:13:41.377
service will only be for a few months. So again, these are.

00:13:42.247 --> 00:13:45.367
Interim solutions and trying

00:13:45.367 --> 00:13:48.677
to kind of stretch these public purpose programs

00:13:48.677 --> 00:13:51.837
but it's certainly not the end solution

00:13:51.837 --> 00:13:54.867
also I did want to update you guys on

00:13:54.867 --> 00:13:58.117
the California advanced service infrastructure funding as you know.

00:13:58.707 --> 00:14:01.937
I think someone mentioned

00:14:01.937 --> 00:14:03.897
lenagan dollars how to do on this program.

00:14:04.567 --> 00:14:07.577
And just want to highlight that right now

00:14:07.577 --> 00:14:11.147
we are looking we've our last round of solicitations

00:14:11.147 --> 00:14:15.017
over 500 million worth of

00:14:15.017 --> 00:14:18.397
infrastructure projects. And we have less than three

00:14:18.397 --> 00:14:20.557
illion in the fund. So.

00:14:21.107 --> 00:14:24.277
So we're going to obviously need to continue to talk

00:14:24.277 --> 00:14:27.357
to the legislature in the Governor's office about

00:14:27.357 --> 00:14:30.737
the continuing need for infrastructure funding, but that is that

00:14:30.737 --> 00:14:34.037
was not a surprise to all of us, but just

00:14:34.037 --> 00:14:37.617
A. Very sharp reality check as we are

00:14:37.617 --> 00:14:40.677
in the situation to know that we already have far more

00:14:40.677 --> 00:14:45.147
demand for the infrastructure funding then we actually have funding

00:14:45.147 --> 00:14:49.047
for and finally the lifeline proceeding which commissioner

00:14:49.047 --> 00:14:51.257
shiroma leads up is A.. Longstanding program.

00:14:51.277 --> 00:14:54.297
And one of the things that we've been looking at and

00:14:54.297 --> 00:14:57.397
legislatures been looking at the need for that program

00:14:57.397 --> 00:15:00.467
to truly be reformed to focus more on

00:15:00.467 --> 00:15:03.547
the lifeline service needs of broadband

00:15:03.547 --> 00:15:07.497
as that program started long

00:15:07.497 --> 00:15:10.967
Ago on The Voice needs sold copper lines

00:15:10.967 --> 00:15:14.127
and it's transformed into a

00:15:14.127 --> 00:15:18.287
cell phone program primarily but now what we are looking in finisher sure almost leadership is

00:15:18.287 --> 00:15:21.887
does the lifeline program really need to focus on

00:15:21.887 --> 00:15:21.997
broadband service.

00:15:21.997 --> 00:15:25.287
So those are some of the things that

00:15:25.287 --> 00:15:28.757
that we have going on in really look forward to

00:15:28.757 --> 00:15:31.947
continued collaboration through the council to take

00:15:31.947 --> 00:15:34.097
those further into take even broader steps. Thank you.

00:15:34.697 --> 00:15:37.877
And only we do have a question

00:15:37.877 --> 00:15:41.187
for Christina like to entertain that

00:15:41.187 --> 00:15:44.847
now if I may just keep that for a little bit I want to make sure we can

00:15:44.847 --> 00:15:48.127
throw the council members update and they wouldn't come back

00:15:48.127 --> 00:15:49.677
for. Questioning. Thank you. Michael. That.

00:15:50.937 --> 00:15:54.067
Thank you. Martha for that update if we

00:15:54.067 --> 00:15:56.617
can move to Kelly's pet cat.

00:15:57.197 --> 00:16:00.337
Hi, Good afternoon on the lighter

00:16:00.337 --> 00:16:03.547
side SpaceX obviously found out that they had

00:16:03.547 --> 00:16:05.027

a conflict with this. So they scrub.

00:16:05.567 --> 00:16:09.277

Describe the mission at T minus 17 minutes.

00:16:09.777 --> 00:16:12.547

So with that.

00:16:12.547 --> 00:16:16.127

More serious side. I've got 3 3 initiatives

00:16:16.127 --> 00:16:19.257

to relate to you one is the next generation

00:16:19.257 --> 00:16:22.437

9 1 1 project obviously

00:16:22.437 --> 00:16:27.237

the Cove in 19 situation has kind of complicated our

00:16:27.237 --> 00:16:31.297

deployment because of some limitations and being able to access

00:16:31.297 --> 00:16:34.377

the public safety answering points. That's

00:16:34.377 --> 00:16:38.547

been delayed about four to 6 weeks and we're doing our best to

00:16:38.547 --> 00:16:42.687

make up on that here at the Sequoia Pacific campus. We've

00:16:42.687 --> 00:16:42.997

tablished the next generation 911.

00:16:42.997 --> 00:16:46.207

Demonstration test lab we

00:16:46.207 --> 00:16:49.247

e have equipment for two full peace apps already installed and

00:16:49.247 --> 00:16:52.387

we have equipment for

00:16:52.387 --> 00:16:55.727

a cloud based peace app or call answering equipment to

00:16:55.727 --> 00:16:56.827

be installed.

00:16:57.517 --> 00:17:00.557

Under the engine, I'm on project

00:17:00.557 --> 00:17:03.637

you know there are four major initiatives moving forward one

00:17:03.637 --> 00:17:06.787
is an IP circuit installation into 430

00:17:06.787 --> 00:17:06.817
piece apps.

00:17:07.317 --> 00:17:10.507 Then
followed by the piece up

00:17:10.507 --> 00:17:13.747
the actual installation of the equipment connection to the carrier

00:17:13.747 --> 00:17:16.987
and then testing of the engine 9 1 1 core services from each

00:17:16.987 --> 00:17:20.127
of those 438 piece apps

00:17:20.127 --> 00:17:23.597
text to 9 1 wants it which is something that's been

00:17:23.597 --> 00:17:26.727
of great. Interest to the Governor's office particularly

00:17:26.727 --> 00:17:29.937
during this a pandemic with unfortunately

00:17:29.937 --> 00:17:33.467
the increase in some of the domestic violence

00:17:33.467 --> 00:17:37.017
situations texted. I'm on one we have a text to 9 1 active

00:17:37.017 --> 00:17:38.487
day in 289 of.

00:17:38.487 --> 00:17:41.847
438 piece apps we have

00:17:41.847 --> 00:17:44.877
69 that are pending deployment within the next few

00:17:44.877 --> 00:17:48.637
days and then we have 80 piece apps that are kind

00:17:48.637 --> 00:17:48.817
of.

00:17:49.697 --> 00:17:52.717
A little slow in making a decision but they've got

00:17:52.717 --> 00:17:55.797

to be complete by January 1 of 2020 so are

00:17:55.797 --> 00:17:59.987

2021 so if they don't make a decision unfortunately we're going

00:17:59.987 --> 00:18:00.277

ng to make a decision for them.

00:18:00.827 --> 00:18:04.227

Location accuracy, which is another

00:18:04.227 --> 00:18:07.347

big essential part of the engine

00:18:07.347 --> 00:18:10.907

9 1 1 services we

00:18:10.907 --> 00:18:14.757

have completed the GIS update with

00:18:14.757 --> 00:18:18.257

the goal of having that fully

00:18:18.257 --> 00:18:21.547

operational this summer 370

00:18:21.547 --> 00:18:25.247

of the peace apps are active today with that location

00:18:25.247 --> 00:18:29.817

accuracy and with that. Comes the ability to actually initiate

00:18:29.817 --> 00:18:31.197

session.

00:18:31.197 --> 00:18:34.437

Texting session from the peace

00:18:34.437 --> 00:18:37.457

apps. So that is now in 2 370 of

00:18:37.457 --> 00:18:40.877

the peace apps moving on to first net

00:18:40.877 --> 00:18:44.047

we you know we're pushing forward with a list of the critical

00:18:44.047 --> 00:18:47.187

verage areas we identified the number of critical sites throughout

00:18:47.187 --> 00:18:50.547

the state such as police. Stations. And in

00:18:50.547 --> 00:18:54.847

power stations and dams etc they're moving forward to cover

00:18:54.847 --> 00:18:59.157

all of those and is the rollout of the subsequent years

00:18:59.157 --> 00:19:01.727

f deployment. We're pushing forward for.

00:19:01.727 --> 00:19:04.627

Our coverage in the fairgrounds.

00:19:05.467 --> 00:19:08.567

And I wonder the other essential, that's

00:19:08.567 --> 00:19:11.647

part of that is in the upgrade of

00:19:11.647 --> 00:19:14.717

the states microwave network of caps net which is a

00:19:14.717 --> 00:19:17.857

California public safety network. That's being upgraded to

00:19:17.857 --> 00:19:21.067

MPs technology. And that will be put in with

00:19:21.067 --> 00:19:24.167

a microwave shot into every piece out

00:19:24.167 --> 00:19:27.547

last item, I have is Senate bill 6 70 which

00:19:27.547 --> 00:19:30.897

has to do with legislation that was signed

00:19:30.897 --> 00:19:33.977

signed into law in a last year it

00:19:33.977 --> 00:19:37.277

lish a community isolation notification. Requirement to

00:19:37.277 --> 00:19:38.937

all the carriers whether it be landline.

00:19:38.937 --> 00:19:41.987

VoIP, I P

00:19:41.987 --> 00:19:45.247

P or cellular uhm they have to report within

00:19:45.247 --> 00:19:48.287

thirty minutes at fifty percent of the service population

00:19:48.287 --> 00:19:51.457

e is without

00:19:51.457 --> 00:19:54.767

service as i said for more than 30 minutes. They have to report

00:19:54.767 --> 00:19:58.257

it to us. So that we can make note of

00:19:58.257 --> 00:20:01.327

notice to the jurisdiction and they could deploy resources based on the fact

00:20:01.327 --> 00:20:04.437

sed on the fact that somebody or nobody can call nine one one

00:20:04.437 --> 00:20:05.497

diction.

00:20:06.577 --> 00:20:09.987

The initial draft of that regulation

00:20:09.987 --> 00:20:13.207

was completed and released it resulted in some comments from

00:20:13.207 --> 00:20:16.947

the industry which were and we edited

00:20:16.947 --> 00:20:20.607

the regulations they amended draft was released for a 15 day review that

00:20:20.607 --> 00:20:23.637

15 days and today and

00:20:23.637 --> 00:20:26.977

the statute requires. The regulations being placed

00:20:26.977 --> 00:20:27.957

by July 1st any questions.

00:20:29.497 --> 00:20:33.177

Very good for

00:20:33.177 --> 00:20:36.477

that Patrick and where will if there's questions from

00:20:36.477 --> 00:20:40.317

the audience go ahead and submit we will.

00:20:40.317 --> 00:20:43.587 Make

sure that those kids are

00:20:43.587 --> 00:20:47.127

dressed after all of the members update. Thank you for that

00:20:47.127 --> 00:20:50.407

Pat. Let's move to Costa representative

00:20:50.407 --> 00:20:50.627

Lori Pepper.

00:20:52.017 --> 00:20:55.077

Thanks so much

00:20:55.077 --> 00:20:59.007

I'm we actually have a lot going on right now an

00:20:59.007 --> 00:21:02.997

last meeting, I think we all met Monica Crest Worcester

00:21:02.997 --> 00:21:08.387

who was our interim broadband coordinator at

00:21:08.387 --> 00:21:12.087

Caltrans, and I guess, unfortunately for us, but

00:21:12.087 --> 00:21:15.417

Fortunately for. Monica. She has moved

00:21:15.417 --> 00:21:19.407

on to a new position within Caltrans or not

00:21:19.407 --> 00:21:23.067

far and although her time with

00:21:23.067 --> 00:21:23.647

the broadband project was short.

00:21:23.647 --> 00:21:26.737

It was extraordinarily effective

00:21:26.737 --> 00:21:30.407

And so I'm just going to run through a few things that have been happening.

00:21:31.277 --> 00:21:34.547

Through her leadership. She has created an and

00:21:34.547 --> 00:21:37.977

engaged a group of executive champions within

00:21:37.977 --> 00:21:41.027

Caltrans she started an internal action plan

00:21:41.027 --> 00:21:44.307

in order to set goals and create the strategies to

00:21:44.307 --> 00:21:47.747

achieve those goals. She was able to

00:21:47.747 --> 00:21:51.277 move
the broadband website to

00:21:51.277 --> 00:21:54.497
a place on the home page within the working with

00:21:54.497 --> 00:21:57.637
Caltrans page in order to make it easier to find for

00:21:57.637 --> 00:22:00.657
d for interested parties as well as the general public and

00:22:00.657 --> 00:22:03.767
plan. Is to update that website to be more user friendly.

00:22:03.767 --> 00:22:06.967
Of course with the current

00:22:06.967 --> 00:22:09.987
situation that is pending budget availability, but it

00:22:09.987 --> 00:22:13.397
will also include more information about

00:22:13.397 --> 00:22:16.597
partnership opportunities. And so

00:22:16.597 --> 00:22:18.987
we expect that there will be a personnel announcement.

00:22:19.627 --> 00:22:23.407
And hopefully really soon.

00:22:23.407 --> 00:22:27.257
Through the rigors

00:22:27.257 --> 00:22:29.017
of the HR process.

00:22:29.627 --> 00:22:32.707
The other thing I wanted to update everyone on. I know

00:22:32.707 --> 00:22:36.487
I've had a lot of great conversations with many people on

00:22:36.487 --> 00:22:40.237
the council and I really appreciate everyone's

00:22:40.237 --> 00:22:43.247
support for in Sacramento. We're doing a

00:22:43.247 --> 00:22:47.097
proof of concept to create mobile hotspots using

00:22:47.097 --> 00:22:50.467
currently unused transit buses. So we're using

00:22:50.467 --> 00:22:53.817
10 stack party buses to provide broadband access

00:22:53.817 --> 00:22:56.897
in digital deserts around Sacramento

00:22:56.897 --> 00:22:59.117
this project is really built on partnership.

00:22:59.627 --> 00:23:03.677
Primarily with the city of Sacramento SAC RT

00:23:03.677 --> 00:23:08.387
Sacramento public libraries T and T Verizon T-Mobile cradle

00:23:08.387 --> 00:23:12.347
le Point Aruba and Sierra

00:23:12.347 --> 00:23:15.527
also we have partnered with

00:23:15.527 --> 00:23:18.597
many community groups school districts

00:23:18.597 --> 00:23:23.257
the California Census and others in order to help

00:23:23.257 --> 00:23:27.497
us. Amplify the fact that

00:23:27.497 --> 00:23:29.777
program exists in the project exists and that is there to be used.

00:23:29.777 --> 00:23:33.327
As well as determine the best location, and we're also

00:23:33.327 --> 00:23:36.707
working with many of them in order to create

00:23:36.707 --> 00:23:39.817
event for you and the goal at the end of

00:23:39.817 --> 00:23:42.927
all of the proof of concept

00:23:42.927 --> 00:23:46.507
which will end on June thirtieth is to

00:23:46.507 --> 00:23:50.107
to create a playbook of best practices for

00:23:50.107 --> 00:23:54.297

other transit agencies or other entities throughout the state

00:23:54.297 --> 00:23:57.947

to replicate and scale for their communities, and I am excited to say that

00:23:57.947 --> 00:23:59.887

know many of them have already reached out.

00:23:59.887 --> 00:24:02.917

Within the state as well as around

00:24:02.917 --> 00:24:06.387

the country that works at about the potential

00:24:06.387 --> 00:24:09.697

for what we're doing and as well as

00:24:09.697 --> 00:24:13.057

other use cases to help with

00:24:13.057 --> 00:24:16.487

you know wildfire basecamps outdoor

00:24:16.487 --> 00:24:17.227

event and many others.

00:24:17.797 --> 00:24:18.807

That's all I have.

00:24:19.567 --> 00:24:23.017

Thank you Lori. and I do wanna echoed

00:24:23.017 --> 00:24:26.067

at the mobile bus. I don't know if

00:24:26.067 --> 00:24:29.117

hat's the right term was getting a lot of immediate attention so

00:24:29.117 --> 00:24:32.187

So congratulations on that. And

00:24:32.187 --> 00:24:35.467

with that by the time we have our July meeting

00:24:35.467 --> 00:24:39.367

I think it would be great to see if we can you

00:24:39.367 --> 00:24:42.927

a presentation on the playbook that

00:24:42.927 --> 00:24:44.347

you all have been developed and share. With all.

00:24:45.527 --> 00:24:47.247

Absolutely, thank you.

00:24:47.757 --> 00:24:50.847 Thank

you alright, let's move

00:24:50.847 --> 00:24:54.087

e to the Department of a food inaccurate oral great to

00:24:54.087 --> 00:24:54.997

have you joining us.

00:24:55.557 --> 00:24:58.727

Thank you Amy, thanks

00:24:58.727 --> 00:25:02.227

s for letting us provide an update and thanks to my colleagues

00:25:02.227 --> 00:25:06.107

for sharing those updates, so we C D, F A

00:25:06.107 --> 00:25:09.447

and in our pandemic response some very

00:25:09.447 --> 00:25:12.467

quickly focused on the food supply and

00:25:12.467 --> 00:25:15.907

the challenges that. That occurred

00:25:15.907 --> 00:25:18.967

just due to the pandemic. I

00:25:18.967 --> 00:25:22.307

think we at CDF A, I've done a good job of

00:25:22.307 --> 00:25:26.007

hting the need for broadband in rural areas for our growers.

00:25:26.007 --> 00:25:29.057

Anne Anne Anne ranchers in the city California. and I

00:25:29.057 --> 00:25:32.317

think that was ever. So highlighted

00:25:32.317 --> 00:25:35.357

during this pandemic, and so we

00:25:35.357 --> 00:25:38.417

continue to work closely on that

00:25:38.417 --> 00:25:41.777

providing response for that also at sea DFA as many of

00:25:41.777 --> 00:25:45.967
you are aware we oversee the

00:25:45.967 --> 00:25:49.197
fairgrounds am the network affairs with specifically those state

00:25:49.197 --> 00:25:53.907
Affiliated fairs and they were really tapped in

00:25:53.907 --> 00:25:56.177
for kovid response from the gecko and.

00:25:56.177 --> 00:25:59.507
You know, do some of the work, that's been done and

00:25:59.507 --> 00:26:02.937
data, that's been provided about broadband at

00:26:02.937 --> 00:26:06.207
at fairgrounds for the first time we were really able to

00:26:06.207 --> 00:26:09.307
report report out which fares are being used

00:26:09.307 --> 00:26:12.387
but also. Use broadband as a metric and be able to

00:26:12.387 --> 00:26:16.007
share that, you know, in decision making

00:26:16.007 --> 00:26:19.037
that went into activating some of these fair grounds for a

00:26:19.037 --> 00:26:23.587
number of uses around covert response. So that was

00:26:23.587 --> 00:26:27.487
really big step forward and making sure that we have the data

00:26:27.487 --> 00:26:30.107
where using the data, and, it's something that we look forward to.

00:26:30.107 --> 00:26:33.217
So using and then also we've just

00:26:33.217 --> 00:26:36.447
been working cross agency with so many of

00:26:36.447 --> 00:26:40.417
my colleagues here and many of the initiatives that we

00:26:40.417 --> 00:26:43.927

initiatives that we know affect California's farmers

00:26:43.927 --> 00:26:48.027
as well as California farmworkers. So we continued to

00:26:48.027 --> 00:26:51.607
provide our response and look forward to working

00:26:51.607 --> 00:26:52.937
with everyone. So thank you.

00:26:54.067 --> 00:26:58.037
Thank you. I'll Toro for that. And

00:26:58.037 --> 00:27:01.107
I appreciate the update and I also want to point out

00:27:01.107 --> 00:27:04.197
that we do have a comment that just got published to

00:27:04.197 --> 00:27:07.477
the public, and that's for Monica who is

00:27:07.477 --> 00:27:10.547
saying that she's going to continue to be A

00:27:10.547 --> 00:27:14.437
Point of contact until there is a replacement

00:27:14.437 --> 00:27:18.477
So Monica. Thank you for that dedication

00:27:18.477 --> 00:27:21.597
and really appreciate both caster agency an

00:27:21.597 --> 00:27:24.557
Caltrans putting a great emphasis on broadband.

00:27:24.557 --> 00:27:27.587
Thank you alright, so with that

00:27:27.587 --> 00:27:29.357
let's move to D JS an Brett.

00:27:29.957 --> 00:27:33.187
Good afternoon

00:27:33.187 --> 00:27:36.327
everyone Bread Jamison with the Department of General Services on behalf of a

00:27:36.327 --> 00:27:39.397
director Daniel Kim as you can imagine Department

00:27:39.397 --> 00:27:42.637

General Services been heavily engaged in covet

00:27:42.637 --> 00:27:45.767

19 response including our procurement division that has been

00:27:45.767 --> 00:27:49.437

responsible for coordinating pee. Pee

00:27:49.437 --> 00:27:53.657

personal protective equipment

00:27:53.657 --> 00:27:57.787

solicitations as well as our real estate services group. That's been helping establish

00:27:57.787 --> 00:28:00.597

facilities for field hospitals in terms of the topic of broadband.

00:28:00.597 --> 00:28:04.287

One of the things we did recently in R and D JS is ongoing

00:28:04.287 --> 00:28:08.227

efforts to ensure that we are getting our surplus computer

00:28:08.227 --> 00:28:11.477

commitment equipment to the underserved is

00:28:11.477 --> 00:28:14.577

recently partnered with the Department of Social

00:28:14.577 --> 00:28:17.917

services and in. Consultation with the Department of Technology

00:28:17.917 --> 00:28:21.287

we issued a management memo, which is essentially a directive to

00:28:21.287 --> 00:28:24.727

state agencies trying to encourage the donation of surplus

00:28:24.727 --> 00:28:28.227

computer equipment to our foster youth ruin our

00:28:28.227 --> 00:28:31.057

ifornia colleges and universities that directive went out.

00:28:31.057 --> 00:28:34.147

On April 13 and since then

00:28:34.147 --> 00:28:37.467

we're operationalizing the directive we have over 20 different

00:28:37.467 --> 00:28:40.487

colleges universities in junior colleges that are interested

00:28:40.487 --> 00:28:43.737

in partnering with us on this initiative and we

00:28:43.737 --> 00:28:48.297

were meeting with numerous foster nonprofits throughout

00:28:48.297 --> 00:28:52.697

the states to try and. Connect those colleges with these foster

00:28:52.697 --> 00:28:57.497

organizations. So that we finally get some of this Sir plus computer equipment in the hands

00:28:57.497 --> 00:29:01.647

ds of our foster youth. So that is one of the kind of broadband initiatives that we are working on right now and.

00:29:01.647 --> 00:29:05.187

Will make sure that it is successful as time goes on.

00:29:06.337 --> 00:29:09.497

And that's what I have for DJ S

00:29:09.497 --> 00:29:12.657

excellent. Thank you. Brian For Dad and really appreciate DDS

00:29:12.657 --> 00:29:15.977

partnership on getting that, you know equipment to

00:29:15.977 --> 00:29:19.127

o the Foster Youth and yes, and CD to play a

00:29:19.127 --> 00:29:22.547

small role in that but we were very, very glad to see

00:29:22.547 --> 00:29:26.237

this is continue. To expand on its own. Thank

00:29:26.237 --> 00:29:27.137

you for digits leadership on that.

00:29:27.887 --> 00:29:31.117

Alright, let's move to a California

00:29:31.117 --> 00:29:31.937

State library in.

00:29:33.547 --> 00:29:36.897

Good

00:29:36.897 --> 00:29:40.697

afternoon everyone, so the libraries been

00:29:40.697 --> 00:29:44.487
en engaged in a number of different activities

00:29:44.487 --> 00:29:47.697
just broadly speaking to remember there about 11

00:29:47.697 --> 00:29:50.777
00 Public Library branches around

00:29:50.777 --> 00:29:53.987
the state in a recent survey that

00:29:53.987 --> 00:29:57.197 was
done of California public

00:29:57.197 --> 00:30:00.307
libraries. We know that almost 80 percent said that they had

00:30:00.307 --> 00:30:03.527
added virtual programming such as job coaching

00:30:03.527 --> 00:30:05.647
time adult literacy K through 12 tutoring.

00:30:05.647 --> 00:30:09.207
Homework help some of you may have also

00:30:09.207 --> 00:30:12.677
seen libraries who are using their broadband connections

00:30:12.677 --> 00:30:15.897
Now, even though the building is not open to the public to be

00:30:15.897 --> 00:30:19.457
able to print personal protective equipment

00:30:19.457 --> 00:30:22.667
for hospitals and other essential

00:30:22.667 --> 00:30:26.317
workers in their communities. And so that's been

00:30:26.317 --> 00:30:29.857
really interesting and exciting to see we at

00:30:29.857 --> 00:30:33.067
the state library have been compiling some of that

00:30:33.067 --> 00:30:36.077
information. We have also been working with libraries.

00:30:36.077 --> 00:30:40.247
Around where and to what extent there WiFi there

00:30:40.247 --> 00:30:43.257
en to the public and accessible

00:30:43.257 --> 00:30:46.467
even though it is the public is

00:30:46.467 --> 00:30:49.747
e public is not allow are not allowed in the building's yet

00:30:49.747 --> 00:30:52.957
And so we're working on and I have been

00:30:52.957 --> 00:30:56.017
working wonderfully with CDT in the CPU sees

00:30:56.017 --> 00:30:59.337
effort around the WiFi

00:30:59.337 --> 00:31:02.947
hotspot map we've also with some

00:31:02.947 --> 00:31:07.567
existing funding that we have we been prioritizing

00:31:07.567 --> 00:31:08.707
technical assistance really engineering consulting.

00:31:08.707 --> 00:31:11.847
To libraries to make sure that they have

00:31:11.847 --> 00:31:15.437
adequate equipment not just for their standard connections

00:31:15.437 --> 00:31:18.837
But also to leverage what you sack has

00:31:18.837 --> 00:31:22.087 now
been clear about that out

00:31:22.087 --> 00:31:25.097
into the parking lot is fine. Right that the WiFi

00:31:25.097 --> 00:31:28.547
connection can get that far and that if we can get

00:31:28.547 --> 00:31:31.917
you know, if you SAC and the FCC or if Congress

00:31:31.917 --> 00:31:35.077
requires them to makes it allowable

00:31:35.077 --> 00:31:38.237
for libraries to have their WiFi there

00:31:38.237 --> 00:31:39.987

irritable connections get. Out into the community.

00:31:39.987 --> 00:31:43.127

That they would have

00:31:43.127 --> 00:31:46.147

the equipment to do that. So that want that last part is a

00:31:46.147 --> 00:31:49.157

little bit of a waiting game because for most

00:31:49.157 --> 00:31:52.307

libraries. That's only going to be an affordable solution. If

00:31:52.307 --> 00:31:56.437

you sack makes those irritable those

00:31:56.437 --> 00:31:59.527

ctions allowable for that purpose. So we are hoping

00:31:59.527 --> 00:32:02.927

that will continue to happen we did sign

00:32:02.927 --> 00:32:06.107

on as I know many of you did to a national letter for

00:32:06.107 --> 00:32:09.757

r Shelby to support that we also did at

00:32:09.757 --> 00:32:09.997

the state library.

00:32:09.997 --> 00:32:13.387

But provided the surplus equipment for

00:32:13.387 --> 00:32:16.847

ough the D JS project, and that was

00:32:16.847 --> 00:32:20.887

really exciting, and I know our folks were really excited about

00:32:20.887 --> 00:32:24.187

bout that I think the big thing right now that

00:32:24.187 --> 00:32:27.787

libraries are thinking about is even though. Libraries that were

00:32:27.787 --> 00:32:31.437

reopened allowed to reopen as of last week

00:32:31.437 --> 00:32:34.567

for curbside pickup as people think about

00:32:34.567 --> 00:32:37.717

starting to reopen the buildings we know it

00:32:37.717 --> 00:32:41.177

will be a long time before those computer labs

00:32:41.177 --> 00:32:42.177

those spaces where people brought their own. Equipment.

00:32:42.177 --> 00:32:45.247

And are going to be able to be as full

00:32:45.247 --> 00:32:48.667

as they would have been and so how do we

00:32:48.667 --> 00:32:51.707

continue providing the programming around the state

00:32:51.707 --> 00:32:54.807

We know that whenever there's a downturn libraries get used more

00:32:54.807 --> 00:32:57.917

and more people come in not just for job training

00:32:57.917 --> 00:33:01.007

and coaching but to sign up for public benefits

00:33:01.007 --> 00:33:04.147

to get family literacy help. And so we

00:33:04.147 --> 00:33:07.807

are working with libraries and looking at potential

00:33:07.807 --> 00:33:11.787

grant opportunities to support libraries as they continue this

00:33:11.787 --> 00:33:12.827

work and to.

00:33:12.827 --> 00:33:15.887

Support that in both broadband in

00:33:15.887 --> 00:33:19.147

there in their buildings. But also getting it out to

00:33:19.147 --> 00:33:20.547

their communities. Thank you.

00:33:21.867 --> 00:33:25.157

Thank you and you always

00:33:25.157 --> 00:33:28.447

s so active in the library and thank you for continued to be as such

00:33:28.447 --> 00:33:32.507
a great advocate in provide those of public

00:33:32.507 --> 00:33:35.067
resources. So let's move to sunny.

00:33:35.827 --> 00:33:37.377
Representing CTF.

00:33:38.667 --> 00:33:41.737
Thank you chairman Tom and members

00:33:41.737 --> 00:33:45.047
s of the broadband

00:33:45.047 --> 00:33:48.447
council the California Emerging Technology Fund has

00:33:48.447 --> 00:33:51.497
been working diligently with

00:33:51.497 --> 00:33:54.817
school districts reached out to about 105 school

00:33:54.817 --> 00:33:58.897
districts of we've been promoting

00:33:58.897 --> 00:34:01.947
ing the interama free offers an

00:34:01.947 --> 00:34:06.057
ama free offers an affordable authors by the Internet service providers

00:34:06.057 --> 00:34:09.657
ways have actually reached more than three

00:34:09.657 --> 00:34:10.317
lion eligible households.

00:34:10.317 --> 00:34:13.327
Lots of traffic has been generated to

00:34:13.327 --> 00:34:17.107
the website. We have that will screen

00:34:17.107 --> 00:34:20.757
people more than 30000 folks have come actually from

00:34:20.757 --> 00:34:24.267
the California Department of Education

00:34:24.267 --> 00:34:28.057
link. And we are very pleased that in Santa

00:34:28.057 --> 00:34:31.387

Clara County the Superintendent of

00:34:31.387 --> 00:34:35.237

ndent of public education doctor Mary Angela ahn actually personally

00:34:35.237 --> 00:34:38.527

to 267,000

00:34:38.527 --> 00:34:40.377

0 students in the County.

00:34:40.377 --> 00:34:44.097

Santa Clara promoting

00:34:44.097 --> 00:34:48.117

the affordable offers in three different languages

00:34:48.117 --> 00:34:51.657

And we have available community based organizations

00:34:51.657 --> 00:34:53.277

to provide assistance in signing up.

00:34:53.907 --> 00:34:57.307

We have the opportunity to share with

00:34:57.307 --> 00:35:01.217

the California Department of Education Superintendent Germans

00:35:01.217 --> 00:35:05.597

Digital Divide task force last Friday

00:35:05.597 --> 00:35:09.107

the experience that we often have with trying to assist

00:35:09.107 --> 00:35:12.117

low income families in signing up for affordable

00:35:12.117 --> 00:35:15.157

offers the Public Utilities Commission is

00:35:15.157 --> 00:35:18.187

written to the ISPs several other elected

00:35:18.187 --> 00:35:21.597 officials

the big city mayors

00:35:21.597 --> 00:35:23.917

have an education coalition and the ISPs while having.

00:35:23.947 --> 00:35:27.157 Really

stepped up during this

00:35:27.157 --> 00:35:30.667
crisis need to, I think work more closely with us and

00:35:30.667 --> 00:35:34.277
just do a little bit more we need to have

00:35:34.277 --> 00:35:37.587
advertising of the free offers an

00:35:37.587 --> 00:35:41.017
affordable offers that they can then transition to

00:35:41.017 --> 00:35:44.047
we. Know from the advertising of very

00:35:44.047 --> 00:35:47.467
small amount that we have done this year and

00:35:47.467 --> 00:35:51.387
add will run particularly if it's in Spanish in

00:35:51.387 --> 00:35:54.277
on television and immediately we get called. So we wanna try to step up.

00:35:54.327 --> 00:35:57.477
A promotion by the Internet

00:35:57.477 --> 00:36:00.607
service providers of their

00:36:00.607 --> 00:36:03.677
free introductory interim offers an affordable

00:36:03.677 --> 00:36:06.987
offers and have the state agencies also promote

00:36:06.987 --> 00:36:10.247
those available offers to get as many

00:36:10.247 --> 00:36:10.817
people signed up as possible.

00:36:11.967 --> 00:36:15.177
Excellent, thank you Sonny

00:36:15.177 --> 00:36:18.457
y for that and just to wrap up the member briefing

00:36:18.457 --> 00:36:21.987
I will give a very brief update on what Department

00:36:21.987 --> 00:36:25.387
of Technology is doing and thanks to the great

00:36:25.387 --> 00:36:29.197
work and leadership by Stephanie Tom. Ann and her colleagues

00:36:29.197 --> 00:36:34.227
such an and joes an elevation model who overseas

00:36:34.227 --> 00:36:37.907
the California account net contract the Department

00:36:37.907 --> 00:36:40.977
of technology was able to convey a couple

00:36:40.977 --> 00:36:43.117
of checkins with all of the Internet service provider.

00:36:43.117 --> 00:36:46.747 To not
only get feedback from

00:36:46.747 --> 00:36:50.327
them as well as ideas and suggestions on how to

00:36:50.327 --> 00:36:53.967
best support the state in general in responding

00:36:53.967 --> 00:36:57.077
to the pandemic both in a broadband aspect

00:36:57.077 --> 00:37:00.377
as well as closing the digital divide

00:37:00.377 --> 00:37:04.067
such. As donations of equipment to

00:37:04.067 --> 00:37:07.187
Daria an community that needed to most. So I also want to take

00:37:07.187 --> 00:37:10.627
this opportunity to thank all of those ISP

00:37:10.627 --> 00:37:13.937
those ISP Internet service providers as well as the

00:37:13.937 --> 00:37:15.287
y companies who have a stepped up.

00:37:15.287 --> 00:37:18.337
And provide those suggestions and

00:37:18.337 --> 00:37:21.677
donations to the state of California in helping to

00:37:21.677 --> 00:37:24.887
a close the digital divide second thing

00:37:24.887 --> 00:37:27.917

that is very exciting. And it's working progress

00:37:27.917 --> 00:37:31.297

So by the time we have the meeting in July

00:37:31.297 --> 00:37:34.477

not only were going to have a much longer full blown meeting

00:37:34.477 --> 00:37:37.807

but, I'm hoping that would be able to showcase is

00:37:37.807 --> 00:37:41.217

to everybody as well is

00:37:41.217 --> 00:37:44.737

is again, under. Leadership of Stephanie. Tom as well as working with cpuc

00:37:44.737 --> 00:37:46.457

see we have the state.

00:37:46.457 --> 00:37:49.707

A geoportal are in

00:37:49.707 --> 00:37:54.307

the process being updated to reflect the various

00:37:54.307 --> 00:37:57.377

WiFi hotspot. That is provided

00:37:57.377 --> 00:38:00.417

I know many of the members from this council

00:38:00.417 --> 00:38:03.737

Annan others and cpuc have all contributed to

00:38:03.737 --> 00:38:06.767

o that. So thank you for you guys this

00:38:06.767 --> 00:38:10.277

idea and the taking

00:38:10.277 --> 00:38:14.187

the initiative, it's hard work ahead. I heard from

00:38:14.187 --> 00:38:16.707

he state Geo geographic information.

00:38:16.707 --> 00:38:20.007

Some officer this is really hard work, what what

00:38:20.007 --> 00:38:23.637

I get myself into but I know it's gonna pay

00:38:23.637 --> 00:38:26.667

w it's gonna pay off an so hopefully by the time we enter

00:38:26.667 --> 00:38:29.957

w July will be able to showcase that map

00:38:29.957 --> 00:38:33.987

With everyone. So with that, that concludes

00:38:33.987 --> 00:38:37.217

the council member update I want to get back to a

00:38:37.217 --> 00:38:40.717

question that was asked specifically to Christina

00:38:40.717 --> 00:38:44.117

Ann. Thank you. Robert for your patient on that

00:38:44.117 --> 00:38:47.867

So mycological Henry off the question. The question is Christina are

00:38:47.867 --> 00:38:51.007

e you working with any federal agencies on the Tribal broadband?

00:38:51.007 --> 00:38:51.867

Issues.

00:38:53.277 --> 00:38:56.447

So to answer

00:38:56.447 --> 00:38:59.837

that question right now we're more focused on making sure

00:38:59.837 --> 00:39:03.307

that Tribal governments are getting the resources they need for the federal stimulus

00:39:03.307 --> 00:39:07.547

packages to be able to make those decisions for

00:39:07.547 --> 00:39:10.367

themselves because those are going. To be.

00:39:10.367 --> 00:39:14.317

Major capital investment

00:39:14.317 --> 00:39:17.407

projects with not easy solutions

00:39:17.407 --> 00:39:20.617

And so we're trying to make sure that

00:39:20.617 --> 00:39:24.297

Tribal governments are able to make those decisions

00:39:24.297 --> 00:39:27.547

as they get resources through these stimulus packages. And so

00:39:27.547 --> 00:39:30.587

that's been our major focus and also making sure

00:39:30.587 --> 00:39:33.677

that tribes are equipped to face

00:39:33.677 --> 00:39:36.707

the current issues. I think beyond the Cove it emergency.

00:39:37.427 --> 00:39:41.587

We will be engaged in more discussions

00:39:41.587 --> 00:39:44.677

about how to get more of that capital

00:39:44.677 --> 00:39:46.817

into California given that.

00:39:47.427 --> 00:39:50.497 You

know, the issues here are

00:39:50.497 --> 00:39:53.917

are different from anywhere else and that

00:39:53.917 --> 00:39:57.057

tribal lands here are kind of

00:39:57.057 --> 00:40:00.157

have in a unique situation with especially

00:40:00.157 --> 00:40:00.767

the number of Tribal.

00:40:01.377 --> 00:40:05.067

A government that we have in the state. So

00:40:05.067 --> 00:40:08.157

the short answer is that right now we are

00:40:08.157 --> 00:40:11.407

working more closely with some of the public health agencies

00:40:11.407 --> 00:40:14.927

Bureau of Indian affairs and a couple

00:40:14.927 --> 00:40:18.967

other agencies to meet the near term.

00:40:18.967 --> 00:40:21.987

Ability goals of Tribal governments and

00:40:21.987 --> 00:40:25.337
partner as best as we can on that as well as

00:40:25.337 --> 00:40:28.567
work with Congress to

00:40:28.567 --> 00:40:32.737
help ensure that trends are not getting left out of anything that

00:40:32.737 --> 00:40:35.887
is a priority in the immediate term to take. Care of the health

00:40:35.887 --> 00:40:39.217
and safety of Tribal communities in terms of

00:40:39.217 --> 00:40:42.447
capital investment projects that may take years to accomplish

00:40:42.447 --> 00:40:45.547
and completely overhauled infrastructure I think that's something

00:40:45.547 --> 00:40:48.857
ng that is at the top of mind as we get out of

00:40:48.857 --> 00:40:49.797
this immediate.

00:40:49.797 --> 00:40:51.117
Fred of Covad.

00:40:53.427 --> 00:40:56.497
Thank you Christina for that

00:40:56.497 --> 00:40:59.517
t I'm going to add a see if

00:40:59.517 --> 00:41:03.977
any of the council member have any comments from the previous

00:41:03.977 --> 00:41:04.437
update.

00:41:04.997 --> 00:41:08.187
If you do go ahead and unmute yourself

00:41:08.187 --> 00:41:11.447
we have a couple minutes before we go into

00:41:11.447 --> 00:41:12.387
the presentation face of the meeting.

00:41:15.637 --> 00:41:20.847

My stuff sorry, this is Mina Service

00:41:20.847 --> 00:41:24.117

I just wanted to offer i'm not sure who asked the question on

00:41:24.117 --> 00:41:27.467

on the Tribal governments, but we

00:41:27.467 --> 00:41:31.167

do have a limited staff but we do have staff that use

00:41:31.167 --> 00:41:35.687

focus, right. Now on helping the tribes.

00:41:35.917 --> 00:41:39.147

Access particularly wanna

00:41:39.147 --> 00:41:42.157

make sure we can help them with

00:41:42.157 --> 00:41:45.217

applying for the spectrum, that's been opened up

00:41:45.217 --> 00:41:48.267

to them at the FCC. And so

00:41:48.267 --> 00:41:50.357

I'm not sure if the question was somebody who's looking.

00:41:50.927 --> 00:41:54.197

For any sort of technical assistance that we could we

00:41:54.197 --> 00:41:57.317

certainly I hook up they can contact our

00:41:57.317 --> 00:41:58.997

office and we can try to facilitate that.

00:42:00.757 --> 00:42:04.027

Thank you Martha, and

00:42:04.027 --> 00:42:07.857

Martha. and I think it was our audience live audience asking the question

00:42:07.857 --> 00:42:11.227

So if there's any follow up on that feel free

00:42:11.227 --> 00:42:14.447

to go ahead and submit it through the Q and A

00:42:14.447 --> 00:42:17.847

and also a reminder to our live audience

00:42:17.847 --> 00:42:20.877

we do have public comment period towards the end

00:42:20.877 --> 00:42:24.087

as well. But feel free to submit your question in the mean time. So we can

00:42:24.087 --> 00:42:27.777

get you all tied up separately just very

00:42:27.777 --> 00:42:31.277

that wanted to also call to Trish

00:42:31.277 --> 00:42:33.407

sh Kelly who send a note to all of the council member earlier.

00:42:33.407 --> 00:42:37.237

Thank you Trish Continue Partner and

00:42:37.237 --> 00:42:39.257

d advocates and thank you for joining this life event.

00:42:40.027 --> 00:42:43.177 All

right, let's go ahead and

00:42:43.177 --> 00:42:46.707

move to our presentation portion of

00:42:46.707 --> 00:42:50.417

the meeting and start with the Department of

00:42:50.417 --> 00:42:53.667

Education Mary Nicely Senior advisor to the strip

00:42:53.667 --> 00:42:54.577

intendant of public instruction.

00:42:55.107 --> 00:42:56.917

Hello, can you hear me?

00:42:57.597 --> 00:43:01.027

Yes. Thanks sorry. I think I ran into maybe

00:43:01.027 --> 00:43:04.397

the same issue that Martha did and

00:43:04.397 --> 00:43:07.677

I was messaging my colleague Jerry Winkler

00:43:07.677 --> 00:43:11.067

to let him know that when we were evacuated out of our

00:43:11.067 --> 00:43:14.387

building yesterday. I forgot my video camera

00:43:14.387 --> 00:43:18.257
So apologies for that it was very

00:43:18.257 --> 00:43:21.427
hot and we had no power, so they sent us all out

00:43:21.427 --> 00:43:25.297
So we've been very busy at the Department of

00:43:25.297 --> 00:43:28.367
t of Education dealing with digital divide issues that.

00:43:28.367 --> 00:43:31.377
It came upon us very quickly

00:43:31.377 --> 00:43:35.027
And so and we are so appreciative of the Department

00:43:35.027 --> 00:43:38.747
of Technology and cpuc for really partnering

00:43:38.747 --> 00:43:41.997
with us. And in our top my

00:43:41.997 --> 00:43:45.427
colleagues at CDE that day to day jobs were not

00:43:45.427 --> 00:43:48.617
calling thousands of school districts every day to find out

00:43:48.617 --> 00:43:51.657
how many laptops an hotspot

00:43:51.657 --> 00:43:55.627
devices, they need needed and so

00:43:55.627 --> 00:43:58.807
we fell into

00:43:58.807 --> 00:43:59.477
a crisis.

00:43:59.477 --> 00:44:02.557
That was very evident

00:44:02.557 --> 00:44:06.137
that the students that we were connecting at

00:44:06.137 --> 00:44:09.567
school were, no longer connected when they got home

00:44:09.567 --> 00:44:12.987
And so we're very fortunate to have had

00:44:12.987 --> 00:44:16.377

the very first donation come in

00:44:16.377 --> 00:44:19.847

from T mobile for 100,000 hot spots and

00:44:19.847 --> 00:44:23.487

those have shipped out in the last two weeks and due to

00:44:23.487 --> 00:44:26.697

the worldwide shortage of computing

00:44:26.697 --> 00:44:29.827

devices we are catching. Up now in able to start.

00:44:29.827 --> 00:44:33.107

Making use of the actual donated

00:44:33.107 --> 00:44:36.497

funds that came in through the California bridging

00:44:36.497 --> 00:44:40.117

the digital divide fund. And so we've been able to ship

00:44:40.117 --> 00:44:43.737

out over 21000 laptops in the last few

00:44:43.737 --> 00:44:47.337

weeks an hoping that with

00:44:47.337 --> 00:44:50.477

the Castle funds we can pick up another 20

00:44:50.477 --> 00:44:54.427

000 and put use

00:44:54.427 --> 00:44:58.677

the other funds that have been donated to us so I think

00:44:58.677 --> 00:45:00.697

nk it's been mentioned and recently.

00:45:00.697 --> 00:45:04.137

By Sonny that we

00:45:04.137 --> 00:45:08.557

the Superintendent seeing the urgency of need

00:45:08.557 --> 00:45:11.927

decided to pull together a digital

00:45:11.927 --> 00:45:15.737

divide task force made up of a number of

00:45:15.737 --> 00:45:18.787
legislators because we know we have to tackle this from all

00:45:18.787 --> 00:45:21.827
angles. And so he

00:45:21.827 --> 00:45:24.997
is Co chairing his digital divide task force

00:45:24.997 --> 00:45:29.267
with Senator Leyva. He has senator

00:45:29.267 --> 00:45:31.837
McGuire some member would add your Curry.

00:45:31.857 --> 00:45:35.147
And Santiago

00:45:35.147 --> 00:45:38.357
and Garcia. So I think you're all familiar with them because they

00:45:38.357 --> 00:45:41.767
have all been working on issues surrounding the digital

00:45:41.767 --> 00:45:44.927
divide for quite a quite awhile and that is

00:45:44.927 --> 00:45:48.307
why they were selected to join the Superintendent

00:45:48.307 --> 00:45:51.647
on this task force and. If you saw his

00:45:51.647 --> 00:45:54.787
media check in this morning one of

00:45:54.787 --> 00:45:57.897
the big reasons that this was formed was to

00:45:57.897 --> 00:46:01.487
have a concerted effort to have

00:46:01.487 --> 00:46:02.247
legislators and others.

00:46:02.247 --> 00:46:05.557
Trying to

00:46:05.557 --> 00:46:06.097
solicit she put it.

00:46:06.747 --> 00:46:10.457
As bluntly as possible more

00:46:10.457 --> 00:46:13.697
funding for devices

00:46:13.697 --> 00:46:16.817
And also to gain their expertise

00:46:16.817 --> 00:46:20.197
on the policy end of what they have been trying to

00:46:20.197 --> 00:46:22.867
do for all of these years.

00:46:22.867 --> 00:46:26.007
Egg Yolk Curry and a

00:46:26.007 --> 00:46:29.537
wooden McGuire. I'm sure you all over where have very

00:46:29.537 --> 00:46:32.587
rural areas that need infrastructure and have

00:46:32.587 --> 00:46:35.637
been trying for awhile to get this to happen

00:46:35.637 --> 00:46:39.707
And so we're working with them

00:46:39.707 --> 00:46:43.017
on plans and I know we're all going to be working

00:46:43.017 --> 00:46:46.417
together. So I'm very grateful that this, unfortunately, we're not going

00:46:46.417 --> 00:46:50.077
to let this crisis crisis will be hopefully a

00:46:50.077 --> 00:46:53.107
silver lining that is making it a priority

00:46:53.107 --> 00:46:56.387
for everyone to come together because we know it's not just

00:46:56.387 --> 00:46:56.507
our. Students that need.

00:46:56.507 --> 00:46:59.817
Be connected their families need to be connected

00:46:59.817 --> 00:47:03.197
and vice versa. So we need to be able to bring in

00:47:03.197 --> 00:47:06.277
healthcare and public safety and banking

00:47:06.277 --> 00:47:09.757
an E D D and everyone else that

00:47:09.757 --> 00:47:13.297
knows who was left out when it came to this

00:47:13.297 --> 00:47:16.367
digital divide. It's like it's so far families are connected

00:47:16.367 --> 00:47:19.597
our kids are connected if our kids are connected or families are connected. So this

00:47:19.597 --> 00:47:23.097
is a really important thing for us

00:47:23.097 --> 00:47:26.137
We have our infrastructure problems that we

00:47:26.137 --> 00:47:27.257
e are dealing with that we're also focusing in on.

00:47:27.257 --> 00:47:30.707
Be affordability and once again

00:47:30.707 --> 00:47:34.127
we've been really fortunate fortunate to see have

00:47:34.127 --> 00:47:37.277
the cpuc step in and to help our schools

00:47:37.277 --> 00:47:40.667
who are in pretty desperate need

00:47:40.667 --> 00:47:44.047
right now of assistance in financing these hotspots

00:47:44.047 --> 00:47:47.627
because we with. The budget

00:47:47.627 --> 00:47:50.947
looking the way it is we're going to be taking probably in 19 billion

00:47:50.947 --> 00:47:54.617
nineteen billion dollar cut to education so any help that we're getting we're so

00:47:54.617 --> 00:47:57.797
to continue with our distance learning

00:47:57.797 --> 00:47:59.057
as we try and figure out how to reopen.

00:47:59.057 --> 00:48:02.137

Are schools, but we are

00:48:02.137 --> 00:48:05.557
also as sunny mentioned. We've

00:48:05.557 --> 00:48:09.007
had three hearings in just over five

00:48:09.007 --> 00:48:12.727
weeks with our ISPs who, you know have really

00:48:12.727 --> 00:48:15.807
y been actually really great partners in this, we might

00:48:15.807 --> 00:48:19.487
eat them up every now and then but they've also been

00:48:19.487 --> 00:48:23.467
extremely. Helpful and generous and trying

00:48:23.467 --> 00:48:27.107
to figure out how to work with us to get people

00:48:27.107 --> 00:48:29.447
e ability to access these low income.

00:48:29.447 --> 00:48:33.807
Services that are out there, but it's not perfect yet that they

00:48:33.807 --> 00:48:37.577
have they are giving us liaisons to work with for specific

00:48:37.577 --> 00:48:40.927
communities that continue to run into barriers and

00:48:40.927 --> 00:48:44.527
accessing their services. So we've been very busy

00:48:44.527 --> 00:48:47.827
at CDE trying to work on the digital

00:48:47.827 --> 00:48:50.877
divide in our task force is busily working away

00:48:50.877 --> 00:48:54.297
but we're hoping we can all work in partnership. And that this is

00:48:54.297 --> 00:48:57.837
something that is done in conjunction with

00:48:57.837 --> 00:49:00.757
the broadband council and I appreciate you giving me some time to update you all.

00:49:00.757 --> 00:49:01.817

Thank you.

00:49:03.017 --> 00:49:07.027

Thank you Mary for that and

00:49:07.027 --> 00:49:10.227

and as we mentioned that, many people said that

00:49:10.227 --> 00:49:13.377

in the pandemic response, it's a Sprint in

00:49:13.377 --> 00:49:16.927

a marathon and we know that, you know this only

00:49:16.927 --> 00:49:20.397

with this only showcase the need for proper hand for support all of you. Know

00:49:20.397 --> 00:49:23.447

the needs on an ongoing basis. So

00:49:23.447 --> 00:49:27.927

so I know that later I'm going to have a little bit more time for the briefing

00:49:27.927 --> 00:49:32.137

council members to chime in but I know that one thing in comments that were all very

00:49:32.137 --> 00:49:35.347

much interested in helping with whichever way. The briefing council can help.

00:49:35.347 --> 00:49:38.357

And furthering the mission

00:49:38.357 --> 00:49:41.417

of a Department of Education on closing the digital divide for students.

00:49:42.197 --> 00:49:44.707

Thank you for that Mary.

00:49:44.707 --> 00:49:47.797

Alright. Let's move to a Department of

00:49:47.797 --> 00:49:49.207

Agent Director McCoy.

00:49:49.717 --> 00:49:52.727

Thank you. So much for having me here to broadband council. It's been

00:49:52.727 --> 00:49:56.187

wonderful to follow C D E we couldn't agree

00:49:56.187 --> 00:49:59.247

more that it's all about connecting across

00:49:59.247 --> 00:50:02.367

the generations connecting 8 year olds and 8 year olds

00:50:02.367 --> 00:50:05.577

if we do that if we connect the 8 year old an 8 year old we. Will probably have connected

00:50:05.577 --> 00:50:10.087

the whole state. So let me just be very brief and talk with you

00:50:10.087 --> 00:50:13.127

alk with you about what the digital divide has meant for older

00:50:13.127 --> 00:50:16.687

Californians an adult disabilities in this time of pandemic

00:50:16.687 --> 00:50:19.947

so I don't think I have to tell you what the governor said

00:50:19.947 --> 00:50:19.967

his press conference.

00:50:19.967 --> 00:50:22.997

People over 65 are about 20 percent

00:50:22.997 --> 00:50:26.037

of who is infected with covad but

00:50:26.037 --> 00:50:29.377

about 80 percent of the deaths they are

00:50:29.377 --> 00:50:32.827

extremely at risk for the high of the highest

00:50:32.827 --> 00:50:36.727

f all which of course is the tragic death and we have.

00:50:36.727 --> 00:50:40.057

So many families who are experiencing this and, of course

00:50:40.057 --> 00:50:43.247

fearful of this what this means is that older adults

00:50:43.247 --> 00:50:46.627

are going to be home staying at home longer

00:50:46.627 --> 00:50:49.927

even as people are opening up and going back to work and

00:50:49.927 --> 00:50:53.147

going. Back to restaurants and even libraries and

00:50:53.147 --> 00:50:57.157

schools and worship not so much the high risk adults who have this terrible risk

00:50:57.157 --> 00:51:00.417

of death next slide

00:51:00.417 --> 00:51:03.657

They've been staying home the longest since March 15

00:51:03.657 --> 00:51:06.737

when the governor asked that they stay at home. And in very critical thing to know is

00:51:06.737 --> 00:51:08.547

is that increasingly older adults live alone.

00:51:08.547 --> 00:51:12.197

This is for a variety of reasons never

00:51:12.197 --> 00:51:15.527

married divorced umsom LGB tikku who didn't

00:51:15.527 --> 00:51:18.577

marry children moving away. I mean families have changed. I'm sure, I don't

00:51:18.577 --> 00:51:21.677

have to tell everybody here we're probably all experiencing this but older

00:51:21.677 --> 00:51:25.357

adults are often living alone, which can make this long period

00:51:25.357 --> 00:51:29.257

of physical isolation be even more socially

00:51:29.257 --> 00:51:32.627

isolating and then the third piece. We just wanted to

00:51:32.627 --> 00:51:35.787

connect the dots here. Of course with is Internet

00:51:35.787 --> 00:51:38.937

use and guess what the older you are

00:51:38.937 --> 00:51:41.237

the higher the percentage of the population who does not use the Internet, and this is from.

00:51:41.237 --> 00:51:44.387

California Health Interview Survey. So it is a whole

00:51:44.387 --> 00:51:47.577

bunch in there, right? It could be a skills issue it could be a broadband issue. It could be

00:51:47.577 --> 00:51:50.757

affordability issue. But if you see the same

00:51:50.757 --> 00:51:54.047

people were asking to stay home alone or the most likely to live alone at least

00:51:54.047 --> 00:51:57.257

likely to be on the Internet. So that's what we've been laser focused

00:51:57.257 --> 00:52:00.407

on the past few months. Now, I

00:52:00.407 --> 00:52:03.567

just talked a little bit about the challenges, but I want to say look at all

00:52:03.567 --> 00:52:07.207

the opportunities right. Tell a health is a huge win the one that first comes to mind

00:52:07.207 --> 00:52:11.057

and gives us some real opportunities to think about HealthCare Partners

00:52:11.057 --> 00:52:14.267

in health care dollars, but it's so much more than that medical appointment or counseling appointment.

00:52:14.267 --> 00:52:17.307

It's the connections. I how many of you are

00:52:17.307 --> 00:52:20.327

doing a chat San Video conferencing with grandparents

00:52:20.327 --> 00:52:23.727

and grandchildren across the country. It's those connections. It's

00:52:23.727 --> 00:52:26.747

going to church on Sunday or your house

00:52:26.747 --> 00:52:29.937

of worship, it's your book club. It's all of those connections are

00:52:29.937 --> 00:52:33.237

incredibly important as you're physically isolating for months and months

00:52:33.237 --> 00:52:36.427

the purpose from volunteering we see people doing

00:52:36.427 --> 00:52:39.597

volunteering an activities and including work

00:52:39.597 --> 00:52:42.917

we should not forget a huge part of our workforce. Is

00:52:42.917 --> 00:52:45.437

in this same at risk category deliveries been an important piece.

00:52:45.437 --> 00:52:48.787

We're asking people to stay home and yet. We know

00:52:48.787 --> 00:52:52.417

the groceries are essential if we can move even some of folks to

00:52:52.417 --> 00:52:55.677

grocery and pharmacy delivery. It's a

00:52:55.677 --> 00:52:58.737

huge help and having people stay home and then again

00:52:58.737 --> 00:53:01.927

all of us we all like entertainment education

00:53:01.927 --> 00:53:05.197

exercise and making sure, there's content that targets older adults

00:53:05.197 --> 00:53:08.387

lder adults inclusive to older adults of all abilities all races all income

00:53:08.387 --> 00:53:11.677

you can find that YouTube

00:53:11.677 --> 00:53:14.957

channel that speaks to you. So I do want to shout out the library's been great partners

00:53:14.957 --> 00:53:18.027

in thinking about E books and book club staying on line even as we

00:53:18.027 --> 00:53:18.757

open up. So thank you so much.

00:53:19.037 --> 00:53:22.527

So we've done a couple things first just like schools are

00:53:22.527 --> 00:53:25.637

senior centers had to go digital or residential facilities

00:53:25.637 --> 00:53:28.907

people are staying in their rooms not coming out for group

00:53:28.907 --> 00:53:32.127

activities. So this reinvention from congregating

00:53:32.127 --> 00:53:35.167

from coming together to not an how do we get

00:53:35.167 --> 00:53:38.887

you online as quickly as possible. You know

00:53:38.887 --> 00:53:41.997

the food analogy the Senior Center that serves to lunch start

00:53:41.997 --> 00:53:45.327

delivering food. So what about that senior activity

00:53:45.327 --> 00:53:49.107

at was providing social time music exercise? How is that going

00:53:49.107 --> 00:53:49.767

on line? We also.

00:53:49.767 --> 00:53:52.897

Move last month into training. We were able to partner

00:53:52.897 --> 00:53:56.467

with leading organizations in San Diego. And in San Francisco that

00:53:56.467 --> 00:53:59.577

specialize in helping older adults get online and do more online and did

00:53:59.577 --> 00:54:02.607

some webinars which are on our new digital divide

00:54:02.607 --> 00:54:06.477

resource page for older Californians which are linked there, and then

00:54:06.477 --> 00:54:10.417

stly we're looking at using some of our cares and families first money to

00:54:10.417 --> 00:54:14.337

y to do a leap forward to really align our state and local

00:54:14.337 --> 00:54:17.477

efforts especially for limited English rural

00:54:17.477 --> 00:54:20.897

e alone and those adults most at risk of isolation so

00:54:20.897 --> 00:54:22.437

n. So what I would just say is we ask for your support.

00:54:22.437 --> 00:54:26.317

And make recognizing that older adult people disabilities will

00:54:26.317 --> 00:54:29.527

be home for a lot longer as they manage their risk and so

00:54:29.527 --> 00:54:33.007

we want to keep that broadband connectivity there, and then we

00:54:33.007 --> 00:54:36.667

want to work on all pieces of the puzzle. Brought first

00:54:36.667 --> 00:54:41.767

broadband second the devices third the skills and training and then fourth the content as well

00:54:41.767 --> 00:54:44.837

I think we want to stop that

00:54:44.837 --> 00:54:48.847

and just thank you to CDT for partnering with us on some promising

00:54:48.847 --> 00:54:52.077

new initiatives to move forward on all fronts on

00:54:52.077 --> 00:54:55.387

me more to come on that we really want to stop here and. Open it up for any discussion or questions. But thank you for.

00:54:55.387 --> 00:54:58.687

Most of all for including all Californians across

00:54:58.687 --> 00:54:59.597

the whole lifespan very grateful.

00:55:00.987 --> 00:55:04.117

Thank you. So much Kim in my apology, I

00:55:04.117 --> 00:55:07.137

so used to call you Kim and I when I

00:55:07.137 --> 00:55:09.697

butcher your doctor Wade.

00:55:10.497 --> 00:55:13.697

That's OK, I just for that

00:55:13.697 --> 00:55:17.107

And thank you for that presentation. I just wanted

00:55:17.107 --> 00:55:20.427

with three minutes to go and we want to wrap up this meeting on

00:55:20.427 --> 00:55:23.597

time I want to make sure that the public

00:55:23.597 --> 00:55:27.087

comment, you know, from attendees have an opportunity

00:55:27.087 --> 00:55:30.577
to put in a question a chime in. And in

00:55:30.577 --> 00:55:33.897
the meantime if any council members like

00:55:33.897 --> 00:55:37.287
ay a few more words about your thoughts

00:55:37.287 --> 00:55:40.467
as well as we as we said

00:55:40.467 --> 00:55:40.887
at the very beginning of this meeting.

00:55:40.907 --> 00:55:44.747
Today's meeting is a dry run of how

00:55:44.747 --> 00:55:47.987
this reopening looks like and how we reengage

00:55:47.987 --> 00:55:51.247
and understand everybody's so busy. That's why we kept it

00:55:51.247 --> 00:55:54.427
short for one hour, but this is teeing up

00:55:54.427 --> 00:55:57.617
for a July meeting where we wanted to have a full length

00:55:57.617 --> 00:56:00.657
as well as ability for the council

00:56:00.657 --> 00:56:04.097
council members to really deliver it on all of the incoming

00:56:04.097 --> 00:56:08.057
s and suggestions and to be very

00:56:08.057 --> 00:56:11.097
much action oriented given how much we have

00:56:11.097 --> 00:56:12.117
learned in the past two months.

00:56:12.117 --> 00:56:15.437
And so I want to make sure that we have that as

00:56:15.437 --> 00:56:18.617
an action item for you all and with the last

00:56:18.617 --> 00:56:21.957
two minutes any council members want to chime in.

00:56:25.177 --> 00:56:30.017

Yes

00:56:30.017 --> 00:56:34.687

We're all quiet bunch because this is a life

00:56:34.687 --> 00:56:37.707

event alright. Well, let me see

00:56:37.707 --> 00:56:40.927

I think earlier there were

00:56:40.927 --> 00:56:43.967

I good comments coming in from

00:56:43.967 --> 00:56:47.907

our attendees via this life event. Thank you

00:56:47.907 --> 00:56:51.047

for continue to stick with us despite all of the busy

00:56:51.047 --> 00:56:54.137

schedule that I'm going to welcome

00:56:54.137 --> 00:56:56.747

you on behalf of the council to continue to join this life event.

00:56:56.747 --> 00:56:59.757

In July we will have those states post it

00:56:59.757 --> 00:57:02.967

very soon, and then once again, all

00:57:02.967 --> 00:57:06.097

other council member for joining this meeting

00:57:06.097 --> 00:57:09.387

really appreciate an congratulate to all of you for

00:57:09.387 --> 00:57:12.477

all of the great progress. You have made as I've

00:57:12.477 --> 00:57:17.847

heard from one of my wife's mentor doctor

00:57:17.847 --> 00:57:21.037

director mark every duty from OES

00:57:21.037 --> 00:57:24.657

that this is a marathon not a Sprint

00:57:24.657 --> 00:57:26.817

Sprint even though we feel like we are running a Sprint within. Marathon.

00:57:26.817 --> 00:57:30.177

So with that please take good care

00:57:30.177 --> 00:57:33.347

of yourself up please continue to think about

00:57:33.347 --> 00:57:37.327

the actions that this council can act on behalf

00:57:37.327 --> 00:57:40.427

of, you know the California. And in July and we're going

00:57:40.427 --> 00:57:44.347

to have a very robust conversation in a meeting

00:57:44.347 --> 00:57:46.497

involving everyone from public. Thank you. So much.

00:57:47.857 --> 00:57:50.017

Thank you bye.

00:57:51.087 --> 00:57:51.697

Thank you.
